# Retinal Screening

Retinal screening photos are images of the inside of the eye that are used as baseline documentation of a healthy eye or to screen for potential disease(s).

These images can be compared year after year to monitor even the most subtle changes in the eyes.

Members pay no more than a **\$39** copay for retinal screening each year.

Members with diabetes receive fully covered retinal screening each year.\*

# Essential Medical Eye Care

Here's what's covered

Fully covered retinal imaging for members with diabetes who do not have diabetic eye disease.

Exams and services to treat immediate issues like pink eye and sudden changes in vision loss.

Treatment options to monitor ongoing conditions such as dry eye, diabetic eye disease, glaucoma, and more.

This coverage is supplementary and in most cases your health insurance will be billed first.
